## The Eminent Kidney and Bladder Specialist

**His Laboratory.**

There is a disease prevailing in this country most dangerous because so deceptive. It is called Bright's disease, or kidney-trouble. It is a heart-disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance, it may produce a general poisoning of the vital organs, the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's disease. Dr. Kilmer's **Swamp-Root** the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. It is sold in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Elmhurst, N. Y.

Age does not necessarily mean feebleness and ill health, and nearly all of the sickness among older people can be avoided. Most elderly people are very susceptible to illness, but it is wholly unnecessary. By keeping blood pure they can fortify themselves against three-fourths of the ailments which they suffer so generally. S. S. S. is systems young, by purifying the blood, and drives away accumulations, and imparts life to the whole body. It increases up the energies, and sends new life about the entire system.

FRIDAY, MARCH 2.

AFTER ten days of incessant fighting the Boer General, Cronje, surrendered to Lord Roberts.

UNDER the operation of the Goebel election law the result is not left to chance.—Watterson.

THE legislature and State board did just what THE REPUBLICAN predicted—stole the election, but the fight continues.

If there is to be any stealing done in this election, I am ready to bet the other fellows will not do it.—Blackburn at Mayfield.

BLACKBURN asked the Republican Governor to sign his election certificate and now he won't ask the same favor of a Democratic "Governor." Isn't that funny?

WHY Senator Blackburn has not called on "Governor" Beckham to sign his Senatorial document is significant that he considers Beckham a "pretender."

THE election commissioners threw out the vote of the city of Louisville, cast for the State officers, but those polluted legislators, such as Letterle & Co. are permitted to continue to act in the legislative capacity.

THE passage of the financial bill put a quietus on the political incus which has been disturbing the dreams of the financiers for the past four years. Bryan's logic was that farm products would fall flat unless the farmer had free silver at 16 to 1, the fallacy of this argument has been conclusively proven by the McKinley administration. Farm products were never higher and money was never so cheaply borrowed. It will be of interest to the readers of THE REPUBLICAN to have the countries based upon or regulated by the gold standard. They are as follows: The United States, Great Britain, France, Germany, Russia, Austria-Hungary, Norway and Sweden, Denmark, Portugal, Turkey, Japan adopted the gold standard after the Bryan fiasco in this country in '96, Finland, Egypt, British Honduras, Brazil, Chili, Peru, Costa Rica, Italy, Holland, Switzerland, Belgium, Greece, Venezuela and India. The countries adhering to the free silver system are Mexico, whose dollar is only worth 46 cents in our own money, China, Serbia, Roumania and a few of the side shows of South America. All clear-thinking men will stand by that system of finance that has made our country great commercially.

### The Purpose of the Goebel Law Has Been Accomplished.

Another step, in the series of revolutionary steps being taken by the Goebel wing of the Democratic party to deprive Kentucky of a republican form of government, was made last Monday when the farcical State election board pretended to throw out all the minor State officers and in their stead place men whom the people ignored. This board is composed of the following unscrupulous, unprincipled, unconscious, ungentlemanly and polluted men: Chas. B. Poyntz, John A. Fulton and Morton K. Yonts. It will be remembered that Poyntz is the same man that dissented from the decision of Pryor and Ellis in canvassing the election returns and this course is the one law and its author intended for him and the entire board to pursue, but the robbery was too flagrant for the other members to make themselves participants in the overthrow of civil liberty. After the returns had been made and the entire Republican ticket awarded certificates from Commissioner of Agriculture to Governor, Messrs. Pryor and Ellis resigned their ocerous positions, to the surprise of all Kentuckians. It was thought and hoped that they had enough moral courage to defend the people, the "great common people" and their birthrights, but when the test came they faltered and left the "great common people" at the mercy of a man, in whose eyes theft and fraud are virtues. It was presumed that in filling the vacancies on the board Mr. Poyntz would select men of his own type and mould whose ideas of honesty and justice were to do the bidding of a set of political desperadoes, that they would be men of effeminate minds without character, reputation or principle. The *modus operandi* of this newly constructed board at Frankfort Monday proves conclusively that Messrs. Fulton and Yonts are as unscrupulous as the man who appointed them.

This board, sworn to try the contest impartially and render a just verdict, did, without any legitimate cause or reason, overthrow the Constitution and the Bill of Rights and thereby declared that the people of the counties of Jefferson, Martin, Johnson and Magoffin had no right to a voice in the government, because soldiers were in the army at Louisville to hold in

check Mayor Weaver's three hundred extra bullets that the citizens might go to the polls and cast their votes without being harmed or intimidated by a mob of police mustered for the sole purpose of intimidation. There was as much cause for throwing out the vote of Hartford and Beaver Dam and Fordsville because they had marshals to preserve the peace as there was for throwing out the vote of Louisville because she had men prepared to preserve the peace, but this is Goebelianism as depicted by Watterson in 1898. Martin, Johnson and Magoffin counties were thrown out because the ballot paper was thought to be a little too thin and it is further claimed that the squares enclosing the Republican and Brown Democratic devices were a fraction larger than that surrounding the Goebel device, which is as false and absurd as the entire report of this board. This board of degraded and deformed human beings had the effrontery to go behind the returns approved and signed by 119 Goebel election boards, and ratified by the original State board, and reverse the decision there recorded. It is indeed remarkable that this wholesale slaughter of the Constitution and the Bill of Rights is being sanctioned by many good men whose minds are clouded by party prejudice until their mental visions of reason and justice are as dull as lead. No one is surprised that the members of the State and Campaign committees sanction this hellish act of the State board, because they virtually assented to it when they signed the petition for the contest, but the idea, that Christian men who pray to God for strength and health will sanction an act that deprives their brethren of their birthrights, astounds the sober and conservative citizen. Is it possible that Christian men, who have spent a lifetime in serving their God and whose charter is chartered for St. Peter's gate, will sanction and approve the act of the State board? Considering the motives that prompted this board to act, we do not believe that they will. If they do, this might one well exclaim, "O judgment thou art lost to brutish beasts, and men have fled their reason!"

How singular it was that out of 119 counties the Goebelers did not commit a single error or make the slightest blunder, and the Republicans were so corrupt in four counties that they should be stricken from the roll and their citizens deprived of the right to a voice in the government and yet every county from the Purchase to the Big Sandy was DIRECTLY under the control of Goebel's men. All intelligent men everywhere are agreed that if the Republican party had desired to commit fraud it was impossible, for its hands were tied by a Goebel law that makes all men slaves to the edicts of a few partisan men. If a Democrat doesn't blush, when he asserts that the Republicans committed fraud in the recent election it is because they have no conscience. From every stump in Kentucky came the declaration that "If any stealing is to be done the Republicans will not do it." Gentlemen, what reason have you for changing your mind, except that your count didn't "pau" out to suit you? Verily the party that assumes Goebelianism is doomed.

### The Herald vs. The Herald.

But without multiplying words to prove the verity of any claim, or to show the fraud and deception which they have practiced against the people, let us see what the result is now estimated, as final. The Republican ticket has been elected by a majority ranging from less than three thousand to more than thirty thousand. There are extravagant claims on both sides but we are sure that the situation is exactly what it is. The Herald's election returns are a masterpiece of misstatement.—Hartford Herald, Feb. 29th, 1899.

The Herald, of November 29th, said it truly believed that Gen. Taylor and the entire Republican ticket had been elected by handsome majorities and in its issue of February 28th, it said, "According to all requirements of law, the Democratic contestants for State offices are now the legal and duly qualified officers of this Commonwealth. Mendacity and brazen hypocrisy seems to have seized the Herald's scribe. When our readers compare the above articles they will then be enabled to see what sort of journalism is practiced by Goebelianized journals. Yesterday it said the entire Republican ticket was elected, today we find the same scribe, an apostate, declaring that these same elected men should be the very last to raise a dissenting voice. This may be logic to him who penned the above, but it is certainly not to intelligent, thinking men. The idea was never entertained by anyone, open to reason and conviction, that this contest was waged under the Constitution. Most assuredly it was the infamous Goebel election law held to be Constitutional only by a strict partisan vote in the Court of Appeals. The Constitution is in many respects a good one, far better than we might hope to get again from a body of politicians of the latter day saints Democracy. The above paragraphs are fair samples of the Herald's record. From all accounts it attempts to mimic the Courier-Journal.

### What Will the Answer Be?

Mr. J. B. Poyntz, the political highwayman, famed as a juror for his determination to corrupt the election returns and overthrow the will of the people, thus making himself the assassin of civil liberty, and Mr. Jo. Come Sneaking Blackburn, the eulogist, are being favorably mentioned to represent Kentucky Democracy, as delegates at large, in the National Democratic convention, to be held in Kansas City, Mo., next summer. If Mr. Poyntz is given this post of honor the National convention will undoubtedly reject him unless it desires to make the campaign on a platform with Poyntzism and Goebelianism as its chief cornerstone. If it does, then Mr. Bryan, by all means, should have the nomination. By the part he played in the recent Kentucky struggle, we judge he is in favor of the Goebel law becoming a national law, so under its operations the results would not be left to chance. Certainly the National Democracy has too much regard for its past history as to elect for its standard bearer a man that favors the doctrine of Goebelianism, if not, then the Democratic party might as well disband and take up its quarters with Aguinardo or Montejó, for the principles upon which the Kentucky Democracy waged its last battle will never be endured in any climate where liberty has once dwelt, or the Word of the Savior is known.

The principle of the American people—"equal rights to all and exclusive privileges to none"—and the cost of their freedom stand preeminently above all else in the heart of the true patriot. Doctrines that breed revolution and strife are deadly foes to domestic tranquility and to the perpetuity and continuity of any nation. According to Mr. Watterson, the expounder of Democratic truth, the Goebel law is revolutionary in spirit and most assuredly, in practice: "It might well be described as a measure to deprive Kentucky of a republican form of government." No man true to himself, his country and his God can dispute this statement, although it was made long before the test came. Surely that spirit, which moved Ulysses Woodson to assert that "The respectable, white property-owners of Kentucky should govern," will not be permitted to dominate in the National Democratic convention. Mr. Goebel is credited for having commanded his friends, while on his death bed, "To be true to the great common people."

It will be remembered that Mr. Woodson uttered this vile threat within a fortnight after the above command had been given and yet Mr. Woodson was the bosom friend and chief counselor of the late Mr. Goebel. The men that now seek to further disgrace Kentucky Democracy by being honored with the dignified position—delegate at large—to the National convention, were also bosom friends and trusted lieutenants of the late Mr. Goebel and they, too, by their actions, have threatened and attempted to overthrow the voice of the "great common people" and subvert their will and yet they SWEAR TO THE PEOPLE THAT THEY ARE THE FRIENDS OF THE POOR. The declaration of Mr. Woodson "That the respectable, white property-owners should govern" and Mr. Poyntz's minority report carry with them about as much consistency, in the statement that they are the poor man's friend, as the cry that the contest was conducted according to the letter of the law. If the poor man ever had an enemy, and he certainly has many, the present leaders of the Kentucky Democracy are most undoubtedly his deadliest foes. It is not desired that any man should consider our argument as conclusive proof, but if he will read the following he will be forced to the same conclusion.

THE DEMOCRATIC STATE TICKET JUST NOMINATED WILL CERTAINLY BE ELECTED. UNDER THE OPERATION OF THE GOEBEL LAW THE RESULT IS NOT LEFT TO CHANCE.—Henry Watterson in a letter to the President of the L. & N. R. Co., June 28, 1898.

"The white, property-owning, respectable people of this Commonwealth, now and hereafter, are going to legislate some respect for law and public decency into the heads of those ignorant negroes and as many more vicious and red-handed mountaineers. The struggle for supremacy is about over and the end will prove in this state, as it has in other States, that only the people who are capable of good government will be permitted to govern."—Troy Woodson in *Commonwealth Messenger*.

Will the National Democracy assume Goebelianism and Poyntzism and Wattersonism and Blackburnism and Trimbleism and Woodson's version of the poor man's friend? We do not know. We did not believe that Kentucky Democracy would, but it did. We did not think that the election would be contested, when Mr. Goebel said he would attend to the counting, but it was. Neither did we think that the Kentucky courts would stoop to take part in partisan affairs and render a partisan verdict, but they did, and now we are left as to become of the Kansas City convention and the Kentucky Democracy Poyntzized and Blackburnized and Goebelized, as a matter for speculation? What will the answer be, when Kentucky unloads her wretched freight in the Western city? Time will tell.

### Shall We Have Good Roads?

These energetic efforts and up-to-date business men who will have to attend court next week will certainly be thoroughly disgusted with having to travel impassable roads. The people of Ohio county deserve better roads and they are demanding a better road system. Everybody is thoroughly disgusted with the present system of road working, because under its operation the county has had nothing but bad roads and they grow from bad to worse every year. The road from Beaver Dam to Hartford is now in the manner of blockading business and stifling the interests of the county. The old system of road working by overseers is of the past and will not suffice for the present. The road and bridge system is likewise a failure. By this system thousands of dollars of the people's money have been spent without satisfactory results and this will be the case so long as this system is in vogue. At the January term of the Fiscal Court \$6,100 were appropriated to be expended by road and bridge commissioners throughout the county. These men are good and substantial citizens, but it does not necessarily follow that they are all good road workers. In the past men have been appointed to look after the roads who were absolutely ignorant of their duties, consequently bad roads were the inevitable result. The roads of today tell their sad story.

Shall we have good roads? It is safe to say that they are desired by all. The question is, then, how shall we obtain them? One necessary step toward this end is the introduction of the taxation system. The Fiscal Court is willing to act, but it needs encouragement and support. It is true that there would be some opposition to levying a tax to keep up the public highways, but it would only be by the indolent classes. \$3,000 of the \$6,100 appropriated this year to temporarily repair the roads would have built a turnpike to Beaver Dam and the roads of the county would not have been materially affected. Then next year the turnpike might be extended twice as far and so on until all the important roads in the county were gravelled. This system is being introduced in Breckenridge and Hancock counties with admirable results, so may it be in Ohio county.

### Let Justice be Done.

While there is no doubting the fact that the assassination of William Goebel of Kentucky has aroused the American people as few things could arouse them to a sense of the horror and rank infamy of the act, and while all right-thinking men condemn the cowardly murderer in unmeasured terms, it is equally true that much misrepresentation has found its way into the newspapers concerning the situation in Kentucky, and the Courier-Journal has largely if not wholly responsible for it. That newspaper, which is discredited by the press generally in almost every other matter, seems to be taken as sufficient authority by many in and outside of Kentucky on this question. It would be passing strange but for the fact that weak human nature inclines to credit whatever runs with its prejudices and wishes. But when a gross injustice is done threatening great public interests it would seem that even partisanship should be restrained in the interest of the public good.

The facts of the situation in Kentucky are matters of record and should be known of all men. While the old saying *de mortuis nil nisi bonum* should be observed and adhered to in its relation to individuals, the public acts of an individual, and especially when these acts live to vex and injure when the individual is gone, enjoy no such immunity. Truth compels that they should be fairly yet fearlessly dealt with. In this aspect of the case it must be said that the late Mr. Goebel was a regular politician who loved office and the power that office brings. He belonged to that school of public men as old as political government who hold that the end justifies the means. He followed the golden rule as modernized: "Do unto the other fellow as you think he would do unto you, but do it to him first." With a strong and steady will pushing forward the schemes of a cool and powerful brain, he had become the leader of his party in Kentucky. He was all things for power. He had stood with Carlisle and the gold bugs and betrayed them. He fought Joe Blackburn and then hypnotized him. He so wrought upon this impulsive gentleman that the revenge he proclaimed at the grave of his bosom friend, whom Goebel had slain, in a few months had changed to fulsome eulogy at the grave of Goebel. A gold bug leader in an hour of trial, a free silver leader when the office of governor was the price. A Clevelandite and a Bryanite, deserting the one and playing the other in his own interest. He was a tactician who had defeated temperate legislation in the Kentucky senate, a moralist and yet a corrupter of men. Such must be the verdict of the public and such will it be in Kentucky when the present term subsides and normal conditions return.

That his methods were unscrupulous, it is only necessary to recall how he became the Democratic nominee for governor of Kentucky. Entering the convention with less than one-third of the votes composing it, he traded for control of that body and then betrayed his allies. By making and breaking promises, by the use of a police force to overawe delegates and sustain the unfair and revolutionary rulings of a dummy chairman, and by throwing out hundreds of duly accredited delegates, and by seating hundreds of manufactured credentials, he became the candidate of a convention that was first debauched and then bulldozed. These facts pictured the man; they have never been denied and cannot be controverted. While unreasoning factionalism would canonize him as a saint, a dispassionate public opinion, will say that he was not without his faults. He made a specialty of damage suits against corporations, and especially against railroads. His twelve or more years of legislative record is distinguished by a virulent hostility to railroads. This hostility took quite a utilitarian direction in bills in aid of damage suits, a business in which he was engaged and in which he thrived.

His election culminated in the drastically partisan election-law bearing his name, and which the Courier-Journal at the time denounced as the most wicked ever devised by man, predicting also that which has come to pass—bloody collisions, assassinations and anarchy. The result predicted has proved a horrid fact, and Mr. Goebel by a startling illustration of retributive justice, a justice always as remorseless and cruel as it is shocking, fell a bloody victim to conditions his own law had created.

As a candidate for governor he started out by a declaration of hostility to corporate and other vested rights, and he went so far as to declare that one prominent railroad, in the event of his election, would be driven from the State. This unworthy appeal to the prejudices of the unthinking produced the natural consequences. The interests thus threatened with destruction or communistic confiscation arrayed themselves against him in self-defense and fought for their lives.

They knew that, as regards to some of them, laws had been drafted canceling their charters, destroying their legal lives, and they acted as any other interest would have acted under similar conditions. What methods were pursued we know not, but presume the usual political methods. To the credit of the interests concerned, it may be said that they made their fight in the open.

The Courier-Journal, with a venom positively insane, has, by insinuation and innuendo, uttered the base libel that certain railroad officials had conspired to remove Goebel by fair means or foul. Such an insinuation is too gross for credulity itself. Too monstrous for the wildest partisan! To the credit of Kentuckians it must be said that no reputable Democrat, however blinded by factional feeling, has indulged such a suspicion. The Courier-Journal stands alone on the mountain of meanness. From a fulsome eulogist of the Louisville & Nashville Railroad the Courier-Journal has become its most reckless maligner. Sordid in both relations, it has praised or blamed as it paid best for credit itself. Too monstrous for the wildest partisan! Mrs. Bettie Sanders, of the Beda community, died of consumption Sunday the 25th inst. She had been afflicted quite a while with the dread disease and the end long looked for. A most painful accident occurred to young Mr. Gray, son of the widow Gray, of Belts Run vicinity, one day last week. The Gray brothers were attempting to load a log 20 inches in diameter, 18 feet long upon a log sled. They were on rolling ground. The log had rolled almost off the sled when young Gray attempted to check and hold it. Its weight being so great the log overpowered young Gray, threw him to the ground and rolled heavily over him from head to foot, bruising and crushing his body in a very painful manner. His face was so badly bruised that it is feared ugly scars will trace his face. The entire weight of the log was upon the body of the young man, it passing over him equidistant from the ends. When last reported he was improving and it is hoped will recover.

### IT WAS IN HIS POULTRY YARD.

Man in Iowa. Uses a Compound That Makes His Hens Lay Double the Usual Number Summer and Winter. Secret of His Success. People in the neighborhood of Creston, Iowa, are amazed at the number of eggs that this man drives to market with. When asked what he has done of his hens being so prolific, he stated it was all in a certain compound he was using, that kept his hens in good condition and furnished them with the proper stimulus to egg production. American Poultry Mixture is the name of it, and is made by American Mfg. Co., Terre Haute, Ind. Every man in the poultry business is interested in the health of his hens and their laying capacity. In the egg business this mixture is guaranteed to increase the production of eggs 100 per cent or more refunded. It will do more than three times as much as the same amount of any other compound. It is concentrated in form and the result of years of practical experience in the poultry business. There is absolutely no doubt as to what it will do, and you are invited to try it at the expense of the company. Send \$1 for a sample package and if it doesn't do the work you get your money back. This is fair and is made to induce practical poultrymen to give it a trial. It is also a sure preventive of such diseases as the terrible cholera and roup which create such havoc in all parts of the country. It acts directly on the crop and gizzard and is a thoroughly scientific preparation. The manufacturers guarantee every package or refund purchase money. ## Nervous Spells,

Neuralgia, headache, rush of blood to the head, numbness, an irritable temper, loss of appetite, sleepless nights, poor memory and a general run-down condition. There is no remedy so sure and safe as Dr. Miles' Nervine. From the very first dose its soothing and quieting influence can be felt. Nothing in the past has ever equalled it in power of building up weakened nerve tissues and giving strength to the tired body. The weary sufferer who has walked the floor at night with throbbing temples and bursting brain, will find restful sleep and sweet repose, and awake feeling strong and refreshed. Dr. Miles' Nervine searches out the weak parts wherever they may be hid and gives them new life and vigor.

"I used to suffer from terrible attacks of nervous and sick headache at least once a week, and it seemed that my head would split open. I became so weak that the least excitement would unnerve my nerves and I would have spells when it seemed impossible to get my breath. I had to give up my millinery business and was on the verge of the grave when I heard of Dr. Miles' Nervine and began taking it. The very first night I was able to sleep soundly and the next day I felt like a different person. I continued taking the remedy and now I attend to my customers without any headache or nervousness." Mrs. W. L. Burt, Sallor Springs, Ills.

ture old maid would gently sigh. Some people called her miserly because she did not spend all her money. Others called her eccentric because she kept herself aloof from them. The truth is, she was eccentric, different from so many other women, because she was in love all her long life with the same man.

Phoebe Van Houten was wealthy. She lived in a fine cottage on Grove street, at Monsey, N. Y. Mrs. A. Brown, her nearest neighbor, noticed yesterday morning that the shutter on Miss Van Houten's house were closed. Mrs. Brown called another neighbor, D. V. Serven, and they entered the spinster's cottage. She lay ill in bed.

"I have been ill a week," she faintly said.

"We will get a physician, a nurse, at once," said Mrs. Brown.

"No," said Miss Phoebe; "I need no physician. My time has come—"

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medical properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

### Some Pertinent Questions.

Will some of the late Senator Goetz's friends please tell an anxious public what was meant by the dying man when he said, "Doctor, I forgive him; they are not the ones?"

Will some of his friends please explain why the physicians in attendance have never made public the real facts as to the nature of his wound?

Will some of his friends please explain why the fact of his death was kept a profound secret for nearly an hour as everybody knows,—and for nearly two days as has been reported by some?

Will some of his friends please explain by what rule of gunnery a pistol

larger hole even a cannon ball makes a larger hole where it enters an object than it does where it comes out?

Will some of his friends please explain why the Coroner of Franklin county did not hold an inquest and make a searching investigation into all the facts connected with the shooting?

Will some of his friends please explain why it has been found necessary to so often change the location of the assassin? It was at first asserted most positively that he fired from a certain window in the third story of the Executive Building; but later the shot has come from every other story and from nearly every other window in the building.

There are other questions in connection with this sad and strange affair; but they will not be put until these are answered. — Maysville Ledger
